And so it seems, nothing comes of nothing. The U.S. news media are much tougher on Trump than on Clinton. She was impeached. He wasn't. Already, he's been labeled a racist by the Democratic Party establishment. The news media have moved from assessment of Trump as a "mushy mama's boy" – an easygoing personality type – to calling him a "knuckle dragger" and then a "racist" simply because he's a Republican. Most recently, The New York Times editorial board, normally a Trump-bashing machine, has labeled him a racist for his immigration comments. How can we know? Because everybody does it. Trump is the victim of a two-week rush of media accusations, all designed to destroy his White House campaign. Meanwhile, the most important story about Clinton's private email server and the recent revelations about Clinton Foundation pay-to-play dealings is nowhere to be found. It's as though the press is making a collective decision that it's easier to write about Trump than about Clinton. I don't know if Trump is better or worse than Clinton. He's capable of winning the presidency and he could make things much worse than they are now. But if Trump wins, if Clinton loses, and if he is the next president, it will be a direct result of the intense negativity, contempt, and distrust that have poisoned the U.S. political system – not because of Clinton's trustworthiness. If the media want to help Clinton win the presidency, they can start by doing the following: Completely ignore Trump. He's an old, crotchety, rumpled failed New York entrepreneur with thin political achievements and one failed business. Forget the past. Instead, focus on Trump's own scandals, his falsehoods and exaggerations. It's the Clinton Foundation scandals that are going to win or lose the election for her. It's the Clinton Foundation scandals that are going to expose her as a liar who was trying to influence U.S. policy while she was secretary of state. The news media are not going to do that. Instead, they'll continue to focus like a laser on Trump's unpleasant qualities. After two weeks of daily
