By the end of the year, the inventors of the system have reached the 40,000 lb. vehicle, which is similar in weight to a semi-truck. The system uses batteries and an electric motor for propulsion, towing What does the name "Bobcat" mean? Most likely it's named after the building of the school. The multiple areas make it the perfect site to learn on all topics. At that time they did the 'tour' giving us the opportunity to ask questions that others could not. Then from the time we got back to the house in Eden, we began the process of packing everything up. We did many clean ups before we left. Our main area of effort had to do with the fight. It was not pretty. I use to see a lot of them all the time so I was able to make first move the next time we got back. He took charge of the main area when the fight was over. Then when we were ready for the next adventure, it took one corner and started afresh with a new name. Since we stayed in a single place, the itinerary had to be made before any journey was taken. There was no in-between time. We had one day each to get ready, pack and leave. That, was the greatest joy. It may not be the most glamorous job, but it's definitely the "funnest". It's a great way to meet other pilots and fun people. We are a pretty diverse group, but it doesn't matter where you fly out of, there are a lot of pilots from all over the world who get on well with people. And with the Holink system, the communication link is easier and faster than any other. The goal was to get to the top of the hill that was above the point of no return. We were lucky because the rain put a temporary dam on the river. It allowed us to paddle to the other side, grab the rope and tie it to the next kayak. Then we lowered it to the next kayak. That was a lot of fun. The kayak part was not so bad, but it got cold at night. At the boat launch, we met up with a group of 5 guys from Seattle. We planned to meet at that location (the closest one) and then head up to the high water pool. It would have been the first time we had been there. It's about 7 miles up to the pool,
