The game now includes improved animation, enhanced artificial intelligence, new set pieces and a pitch control system that allows for customizable player options. Moving the ball is easier with updated animations and increased responsiveness. Players now react quicker and get into more advanced positioning on the ball. The AI is smart and adaptive, making it smarter than ever. It now understands how to attack, defend and shoot through the use of new data from real-life football players. Players react to offside situations, increasing the excitement of those moments. And opposition players can perform a perfect last-ditch tackle — chasing down a lost ball with only their controller in front of them. The pitch control system allows for customization and new passing options. Create a unique style of play by adjusting the pitch's characteristics, changing the locations of defenders and increasing or decreasing the contact between the pitch and player. New motion capture cameras accurately track player movements on the pitch — including their close-up actions such as button pressing. "We've spent many years developing FIFA 21, refining it and improving its gameplay," said Patrick Gros, Executive Producer at EA Canada. "The team has delivered a top-class game that puts the player at the heart of everything FIFA does, and we want to deliver a complete package that truly represents today's football. We also wanted to push the boundaries and add even more depth and personality to the game. We've been listening to our community and players and we're very proud of the game and the results." NEW: HyperMotion™ TECHNOLOGY "We've spent many years developing FIFA 21, refining it and improving its gameplay. The team has delivered a top-class game that puts the player at the heart of everything FIFA does, and we want to deliver a complete package that truly represents today's football. We also wanted to push the boundaries and add even more depth and personality to the game. We've been listening to our community and players and we're very proud of the game and the results." PATRICK GROS EXECUTIVE PRODUCER, EA SPORTS "We've been listening to our community and players, and we're proud of the game and the results." SERIES FEATURES NEW: HyperMotion™ TECHNOLOGY

Features Key:

- 5v5 gameplay, designed for online gameplay.
- Introduces HyperMotion Technology, technology that uses, motion capture data collected from real life players playing a real-life match.
- Introduces FIFA Ultimate Team, the global game mode that revolves around managing the club you build, competing in fantasy leagues.
- Live out your dream as both a player and manager, with more ways to progress, achieve, and immerse yourself in your Pro's journey through the game.
- New 3D match engine, delivering more-immersive, realistic football gameplay.
- Dynamic new animation system adds more life to player movement and interaction.
- Introduces On the Ball Control, which allows you to feel the game like never before as you play more intuitively, react faster, and move independently of the ball.
- "Play Your Way" by EA SPORTS, the most personalized approach to player career, training, and game modes in any video game. "Play Your Way" enables you to break down the complex design of FIFA 22 into easily manageable objectives, then provide specific actions to carry out towards reaching those objectives. From creating stadiums to hiring and firing staff, there are actions to be taken.
- "Create a Player" by EA SPORTS, featuring a completely new My Player that lets you develop your own unique ultimate player.]

What's new in Fifa 22:

- **FIFA 22 introduces "HyperMotion Technology," which uses motion capture data collected from 22 real-life players playing a complete, high-intensity football match in motion capture suits.**
- **Feature a more open, free-roaming gameplay experience.**
- **Create the newest club in FIFA, design your kits, style your stadium, and choose whether to compete with the elite or rise up from the lower divisions as you manage your club to glory.**
- **Or test your skills as a player, with a more immersive Player Career mode that gives you more ways to progress, achieve, and immerse yourself in your Pro's journey through the game.**
- **Matchday and Tactics allow you to create more stars, create more goals, and make more tactical changes before each game, with deeper customisation and a new in-match scripting system, allowing you to exceed your own limits.**
- **FIFA 22 introduces less injury and fatigue, with new and exciting gameplay features, improved mechanics and AI updates.**
- **Add more natural control than ever with the return of the Nike Kinect Sensor, including new Micro Surface Controls for more natural and accurate movement.**

FIFA 22 delivers the best on-field action ever by offering an all-new editor, bringing back a Player Intelligence Engine that incorporates years of gameplay improvement including Shots and Crosses. You will be able to use the familiar Shot Impact tool to create shots and customise them. You can now customize more conditions and aspects to get more out of your shots.

- **Powerscreen - Allows the player to select a player from the floating screen of an opponent's player.**
- **Shooting Trajectory - Allows the player to control a player's shooting path.**
