*** Highlights of the release: Smooth animation processing for improved performance 400+ new animations, over 1000 new sounds, and additional visual effects A new Control Intelligence technology delivers more control options in midfield gameplay Improved left and right foot control for more natural player movement and control Improved ball physics for a more authentic experience Increased ball acceleration, spin and deceleration Improved dribbling skills Tackle animations that see players react better to the ball Improved physical attributes and visuals for more realistic player traits Incredible new player models for the first time in FIFA history Richer player customization New styles and clothing to express your individual traits • FUT Champions The biggest competitive league in the game features in FIFA 22, offering new and unique experiences to competitive players. Be the best in your region, then compete against thousands of other top players online to become a FIFA 22 Champion. In addition to the new content, the new Career Mode allows you to experience and collect the greatest moments in the history of The Beautiful Game. • Player Slide and Goalscorer Player Slide is a much improved feature that allows you to show the ball as it moves through the air and to react and intercept the ball during a slide tackle. Goalscorer provides a new visual to see more shots from different areas on the pitch. • Better control in midfield New Control Intelligence technology delivers more control options in midfield gameplay, allowing you to dictate play in the middle of the park. This new system brings more control options to midfielders, allowing them to receive the ball in different locations and choose to play the ball or switch play depending on where the ball is. For example, you can take on-the-ball touches in midfield, control the play from central midfield or link up with your forwards. These changes will have an immediate effect on how the play unfolds. • The international game The introduction of the new control intelligence system has also improved the play in the defensive half. Our analysts have analyzed every corner kick, every throw-in and every free-kick that has been taken over the last 10 years. Using all this data we are introducing the innovative system: Defensive Rotation Control. The system allows you to avoid attacks coming in from the side from extreme positioning and orientations. It is also easier to save throws from far away. Defensive Rotation Control

Fifa 22 Features Key:

- Free-to-Play Experience. Free-to-play fans can experience the most immersive football and FIFA in franchise history with all the features they've come to expect from the series, including team management, a deeper customisation experience, high-intensity match engine and a revolutionary new presentation.
- Bigger and Better. Game developer EA SPORTS has made numerous advancements to the engine to create the most immersive and authentic experience possible. The game generates new camera angles, offers 360-degree views and expand the field to new limits, with players body-mapping and movement capabilities through the curved surfaces of the pitch.
- True-to-Life Team Attributes. Tune in to the pros as they lead their teams through the final minutes of their most important match — from deep dives to make a last-ditch tackle to incredible long-distance shots to score the winning goal.
- FIFA Ultimate Team. The cornerstone of the FIFA franchise, FIFA Ultimate Team is an all-new format that allows fans to build custom teams from real-world players and deliver match-day moments that they never experience on a pitch.
- New Presentation. Watch your team take the field in a new broadcast that curates the most important moments from the game and includes the most realistic stadium effects ever, like the arc of a ball dropping down after missing the top of a bar or the noise of the crowd when your players enter the field.
- New Control Scheme. Experience freedom of control never before seen in a soccer simulation game. Tackle, dribble and throw your opponent off balance with S, D and C buttons mapped to FIFA's signature controls. Quickly build play with new player behaviours that give defenders the upper hand.
- Player Progression and Career.
- Authentic Game Engine. We designed the physics engine, AI engine and game engine from the ground up for FIFA 22, giving life to all the physical aspects of your gameplay like the engine's motions-powered controls and animations that will react to every move you make.
- 4K Scaling. Enjoy a more detailed look with 4K resolutions, including 16x anisotropic filtering which improves the image quality with a crisp edge, enhanced alpha blending, truer, real-time reflections and lens flare.
- New Camouflage. Discover the
