Mission: Impossible - Rogue Nation 2015 Hollywood Hindi DubbedA .Q: Working with boolean queries Why has this query proved to be slow? SELECT DISTINCT(fields) FROM fields WHERE fields=@fields OR @fields IS NULL It took 10 minutes and still running. These are the fields: The number of distinct values may not be greater than 6144. The fields table is about 20,000 records. Is there a quick way of improving the speed of this query? P.S.: I am new to this site and I am sorry if the question is unsuitable. A: A key to optimizing a query is to know if it is written like you intended. To see if your query is slow and if this is a good query to use you can run the EXPLAIN with your original query, change it so you have the WHERE clause that is slow, change it back, then run the EXPLAIN again
