Let's apply for a range of these private lands in all three counties and hope we can get them committed for permanence. We are volunteering to participate in the Draft of a Comprehensive Plan for the Northwest MLCC, but have taken our first steps already by applying for a Recreational Management Plan and a Wetland Addition in Durham County, and an ADD, and a PUD/PUD in Orange County. We are pursuing workable and inclusive solutions for the following agenda items:

- Expansion of woodlands, riparian buffers, and estuaries in and around the MLCC
- Expansion of suitable public lands in various parts of the MLCC
- Improving access to public lands within the MLCC
- Improving access to public lands outside the

---

MLCC•Enhancing connectivity to public lands outside the MLCC•Developing strategies that will provide a variety of public opportunities for outdoor recreation and conservation within the MLCC•Developing strategies to improve the visitation of public lands managed by the REC and CRMP We have been working on addressing these four broad issues, meeting with local landowners, county officials, The Red Land Trust, The Nature Conservancy, The Durham County Conservation Commission, The Conservation Land Trust, The Orange County Parks and Recreation Department, and the Orange County Department of Environmental Resource Management. We expect to complete a formal, comprehensive plan (about 200 pages) by the end of 2010. We are working with a team of environmental and recreational professionals to ensure that this plan is workable. We also are confident in the

objective that we have achieved.Q: Show and hide all div content using javascript I have a list of divs, that displays the header for each one. Inside that header, I have a content div that I want to have display:none; and to become display:block; when I click on the div header. Here is a snippet of my code: Name Content So far I have this javascript:

```
$(document).ready(function() {  
  $("li:has(a.page_name)").click(function() {  
    $(this).children(".content").css("display",  
    "block"); }); });
```

That code works

What's New in the Where Can I Download Photoshop Actions?

Tuesday, January 25, 2015 Recent memories? One of my favourite pages from the Scattered book that was filled with my memories of the small lake where I lived as a kid. I was forced to move from this lake when I was about 9 yrs

---

old and after it, I rarely went near it. Well, it was the water that caught my attention and it was years later when I actually went back and had a look. It was interesting to see how the water had receded and how different the scene was. The person who was in the picture was my Mom's best friend, the late, great Mrs. Cole (Nellie). I remember she had a shiny gold tooth and she used to have everyone in the neighborhood over to watch TV with her and drink. Oh yes, I also remember the stinky milk that would be poured into a pitcher (I had no idea what it was called) and then drunk from, it was a real treat for me! We also have a few of these photos and stories. There is one that is in my Mom's photo album, that has been there for quite a few years and she has asked me to look at to see if she can get a picture of it. Then, at the Northlands, we have a few photos, but there is one where my Mom is sitting in a

---

swing with a friend, I don't know who it is. Good memories. I hope you are all enjoying the snow. We are getting some tonight and again tomorrow. 2 comments: Oh, what pretty photos! And, how fun to go back to the lake and see things as they were. I remember our little lake from back home as well. The memories are so precious! Have a great day. We are looking forward to a long, snowy winter. A healthy calf can thank a healthy mother and milk and...dairy? A healthy calf can thank a healthy mother and milk and a healthy dairy calf, in some cases with a little help from a little yogurt. Cows are born with a thick layer of white, dry, powdery material on their backs called "mane". Usually, mane is shed and regrown. But some cows have second and third manes that do not come off. Researchers have found a link between cows with second and third manes and a higher

## System Requirements:

Resident Evil 1 has been rebuilt using a custom made engine, and is designed to run on Windows 7 and Windows 8. Graphics settings are set to default, so it should work fine on both operating systems. If you experience any problems while playing, please refer to the Troubleshooting section. You can also download the demo version of this game. Play Demo version of Resident Evil 1. Download the demo here Story The original Resident Evil, released in 1996, was a huge success, becoming Capcom's flagship game and one
