The feature can be found in the Enhance menu in the menu bar (Photoshop, Graphics, Enhance, Sharpness and Clarity, or Effects, Blur, Sharpen, Detail, etc.) Color picker Some colours can be hard to select without looking at an RGB/CMYK colour picker tool. The features that use this tool are: Hue/Saturation This makes the colour more vivid, similar to adjusting the brightness. The Hue/Saturation tool is found in the Edit menu, in the menu bar.
