I have seen the EMT class at the DFRI, but I'm not sure if I would be able to pass a class like this with all the subjects? Also, I'm seeing that my ED classes can affect my ability to take EMT, but I'm unsure how important these subjects are to the CCNP course. A: As you've suggested you need to be well rounded for EMT. The class you are referring to is basically just the first day of the CCNP. The CCNP has a rather long class listing on their website (CCNP Fundamentals of IOS) Cisco even has some textbooks that could help you (CCNP Fundamentals of IOS by Cisco Press) The textbook, well after the first day, should have helped you through the remainder of the book (Build your first in a century with Cisco) You'll notice that the book looks at both iOS and CiscoOS. Since you are speaking of an Android device, you'll want to study the Objective-C section of the book (Build your first in a century with Cisco Objective-C), which is in the 'digital textbook' section of the book.

Elden Ring [Updated]

Great game play experience. I have won (and even lost) a few times. Control Difficulty: High Control: Standard I would give this game a 9/10. No more than 1 chance in 20 chances in this game for me to win. (Thanks Game-Addict!) Storyline Variety I like the storyline of this game very much. I do believe that this game deserves the 5 stars for the good storyline. I enjoy the character's choice in the opening part. I do also enjoy the dialogue in the first part of the game until level 8. But very disappointed in the ending and the way I felt as a hero. My hero was not as cool as the ending says it was. I had an issue with my choice not saving. I do agree that it was a bad one. I also liked the character stats. Having a character with a higher physical, magic or pyro stats were not easy. I did enjoy the game for the most part. The level of difficulty was not as hard as I thought it would be. I'd like to see more variety in the levels and more art. It was a very good game! Comments Comments 5 0 0 Godzilla 5/5/2013, 12:29 Fun and challenging but if you're one for loot grinding they let you know it right off the bat. m8 5 0 Theloniuss 5/5/2013, 18:52 Control: Standard I would give this game a 9/10. No more than 1 chance in 20 chances in this game for me to win. (Thanks Game-Addict!) Wow, in all honesty he is probably right. I got a near perfect 9/10 score and it took me until level 20 or so to get that score, the game felt so brutal and there was no guidance at all into what to do and when. So I would be surprised if that happened to anyone, unless they've played it before and just know what to do. The game has a very very long leveling up time. They give you a guide and tell you what to do but it takes well over a year before you get maxed out. At about level 25, I was awarded the most useless best ending for a Wizard who had a very very high PS (9,000). I was actually quite shocked by the ending.
