This is a Free to Play game. This is a game that's pay-what-you-want. So, you can freely support this game by paying for what you'd like, and not paying anything at all (eventually, you won't be paying at all anyway) Elken Ring was developed in collaboration with games like GameDevRift, Tabletop Simulator, and PlayRoom Simulator. It was built and tested by Team Rift, the team behind the GameDevRift package manager and host of GameDevRift. We're so pumped to have the game on the App Store! ## WHAT'S NEW May 30, 2018 The Big Update!! While we have been getting our act together for all this development, we've also been running playtests for content updates and bug fixes for 6 months, so there are a lot of awesome changes already in the game. The update will include a variety of bug fixes, new items and monsters, tons of new events, more events, the new town, and a bunch of other quality of life improvements. With this update, Elken Ring will always be maintained as a free to play title. We're trying to make that update a minimum of 2 weeks after the store page has updated, so expect the new content to be there by the end of June. Keep an eye out for the update the store on June 20th for iOS or June 29th for Android! Just in case anyone is interested, Team Rift has a Steam Group that we've been using to run playtests. ## NEW MAP The new town map. Art by the great gecko: The update

includes a new town map which features new art by gecko, a new character, new monsters, new events, new shops, new items, and more! ## NEW CHARACTER This is the new character, Elen, who is a new breed of warrior that specializes in Magic casting. ## NEW EVENTS These are some of the new events that you can look forward to in the future: - Summon the Dragon: Every few months, a call for a battle to unite the world rises in Elen Island.
