****Where adventure meets mayhem**** Welcome to Spellwake! You are the Renegade, a man who must take up arms and fight to save the world from invaders. ****Three reasons to join the renegades**** Realism. The world is full of the aftermath of horrible invasions. The invasion you will face is not a nice one. These ugly monsters are coming from a place you've never heard of, and they are the only reason you have to come here. It's pure and simple. Fun. You will find fun things to do, lots of them. You're playing a role in an open-world adventure, and your choices will determine the world you will play in. Rebellion. You just want to be free. You just want to say "No" and overthrow the corrupt leaders that are ready to sell your people out. ****How to play**** Jump into the game and select a class. There are 3 classes to choose from: The Warlord (Tank), The Assassin (Healer), The Healer. Train your class by doing different quests. Every class has a specific role and you want to make sure you pick the best class for the job. For example, the tank will have a lot of health and endurance while the healer doesn't. Equip, level up, quest, quest, quest. Spellwake has a combat system that makes combat as intuitive as possible. Getting hit or blocked have strong consequences and players will need to pay attention to their surroundings. ****Combat system**** You have two arrows. You should always have one in reserve for special attacks and the other for blocking. Both of them can also be used to parry incoming attacks. You can block an attack by holding a direction. You can also parry by using an arrow at the right time. Every block has a chance of reducing the damage of the attack by a percentage. It will differ between your class and the kind of weapon used. Bosses will have special attacks that must be blocked and hit in the right way. Pay attention to the difference between the different kinds of attacks and blocks. Avoid blocking attacks completely and attacking from the side, as this will damage you. When you level up, your stats will increase. You will also get new items that you can use in battle. ****Item system**** The biggest part of Spellwake is the item system. You will have to use these items

Reviews
"1001 Jigsaw Home Sweet Home Wedding Ceremony""-Intensive phytotherapy with Forsythia suspensa and Angelica sinensis ameliorates experimental irritable bowel syndrome: a randomized, double-blinded, placebo-controlled, multicenter study. Traditional Chinese medicines (TCMs) and Western medicines are usually used in the treatment of irritable bowel syndrome (IBS). The aim of this study was to investigate the effects of phytotherapy on the symptoms of IBS and examine the mechanism of action. A randomized, double-blinded, placebo-controlled, multicenter study. A total of 198 patients were treated with either 4-week phytotherapy consisting of Forsythia suspensa, Angelica sinensis or placebo. Symptom scores, quality of life assessment and gastrointestinal (GI) motility parameters were compared before and after the treatment. Blood samples were collected at baseline, and at the end of the treatment for cytokine and gastrin analyses. Multivariate analysis identified that symptom improvement was strongly associated with the initial Gastrointestinal Symptom Rating Score. There were significant decreases in stool consistency, abdominal pain, gastric pain, abdominal bloating, and flatulence. Symptom scores, quality of life assessment, GI motility, and serum cytokines were significantly decreased in the phytotherapy group, while the placebo group did not show any significant changes in any of these variables. Compared with placebo treatment, phytotherapy improved the symptoms of IBS and altered GI motility. The mechanism might be associated with decreased serum cytokines and gastrin./** * @license * Copyright Google LLC All Rights Reserved. * * Use of this source code is governed by an MIT-style license that can be * found in the LICENSE file at */

Zombie Vikings Role Overview
Play Style
As a Main Fighter
he can tank a good bit of damage, especially in guns of the Satchel variety, also he can attack the other enemies as well as the leader. He is mainly ignored by the other members though. Overall he is the leader type as he can revive other people.
As a Scrapper
he can do some spreading, the main weapon here is the Satchel and he gets fed, but is not so much of a tank as he can't be pulled around. He's quite slow so his healing can be main focus in the late game.
As a Tech Finder
he would tend to just get to the artifacts when the other members pull new ones out and if they're hidden.
As an Ally
he can help in the early-mid game, as long as he gets the tech he will be most helpful in the early game. He is mainly left to be pulled once the other members get enough of an edge.
As a Farmer
he would mostly help in getting the tech.
Role - Main Fighter
A main fighter is the only character that can be placed in most of the spots throughout the Islands and also the advanced test, and he can tank a good bit of damage. As for his uses. He is the leader of the group and he can also revive other people. His skills are large and he is mostly built for healing so he can survive hits and if not a leader he is an excellent flanker. He can be used on the rally line to get people back from good locations.
As a farmer
he can help out a lot of people or spots.
Role - Scrapper
A scrapper can hold 5 explosives and can throw a Satchel, he can attack enemies and spread on the rally line, both of which are most useful when he has lots of bombs (as the Satchel gives a satchel of explosives).
As an extension to the mind
deads he can just run around and
