Bharat Nag's debut album Switch - Or Die Trying is a soundtrack for the game released by Nomis in 2008. This game was first released as an unfinished beta on Xbox 360, Game Cube, and Playstation 3. In the game, the player plays as Minna or his rival, Toru, and the antagonist is another rival, Madoka. Through the game, the player can experience the solo game playing, join forces with Minna to fight against Madoka or just follow his mentor, Toru. It is a game that explores the notion of friends and enemies and survival. How the game ends, it depends on how you play and which path you choose. To enjoy this game, it is necessary that you have the Xbox 360, Playstation 3 and/or Nintendo Wii versions. Thank you for downloading the soundtrack. Have fun and enjoy listening. This soundtrack is based off an RP that I'll be running and a few related songs to my story. This is NOT a game music soundtrack, but an original soundtrack by me. The end credits go over one more piece of original music, by me. I have no experience at this, but will try to make something cool. If I do, I'll post the result here, or in the Original Soundtracks forum here. If anyone is interested in ordering a physical copy of the album, please PM me. The sounds were mostly composed and edited using Ableton. I recorded all the sounds using my iRig Mic. Gameplay in the game is by far the most important part. A few people have taken their instruments and just composed outside of the game to get the main melodies. This doesn't match my style, but can give you an idea of what I'm trying to go for. (Please, before rating this, make sure you have listened to my soundtrack and let me know what you think. I will also edit this thread after people's reviews.) Comments? The answer to that is in your hands... :) I'm looking forward to people enjoying this soundtrack, and to me hearing what you think of it! Hey, you rock. This is, so far, the best soundtrack of Switch I have heard. I can't tell the difference between the different recordings, but I think your singing is really cool and fits the music well. I'll let people figure that out and you know you'll get a lot of likes on your profile when people hear this track. Songs: Change: - 5.27 Ifs & Buts: - 5.35 Gear Up: - 5.37 Bone Crusher: - 5.36 Frontline: - 5.42 Man, I really dig this. Really well done. This is the best soundtrack I've listened to. So very professional and beautiful. This is a good effort, it's quite simply one of the most well-done RPs I've seen to date. Your soundtrack provides the music for a game that I can only describe as hilarious. With that said, there's a lot of very cool music that comes with the comedy of the game, so the music is a great mix of funny and awesome. The "All-Out Attack" song is an especially awesome track
