In the far future, an expedition of Chaos Space Marines from the Chapter of Chaos' Wrath, led by the aegis-touched Primarch Ulric-Marius Gyleh, has conquered the world of Kanak, a major outpost of the Imperium. The Imperial Guard infantry, fighting against the superior power of the Chaos forces, as well as a detachment of the Harlequins, which had just been sent there to repair the orbital weapons station that orbits Kanak, have not put up any resistance. On the contrary, they have abandoned the station's defence, fleeing to the planet's surface, but not before taking all the prisoners with them. But the humans cannot understand these events, and their only response is to attempt an all-out attack against the Throneworld of Ulric-Marius Gyleh, which is still protected by the Imperium's Spare-Ranger Squadrons and their fleet of Interceptor Droids. This unit of tiny humanoid A-wing starfighters, flying prototype models made by the Adeptus Mechanicus for the needs of the Adeptus Astartes, have been steadily developed since the end of the Third Age of Mankind, when the clans of the Wolves first split off to form their own Chapter and rise up against the paganistic tyranny of the Imperium. Key features: New character - Stormcaller, Sergeant of the Spare-Rangers of Ulric-Marius Gyleh. New PvE arena - Imperial Guard Garrison. New enemies - Kanak Skull Takers. New deck construction mechanic. New campaign. About The Game Warhammer 40,000: Space Marine - Relics of War: The original, faithfully re-imagined, and more than faithfully re-adapted new RPG-MMORPG thanks to the adroit expert hands of Måns and Jim 'TheNoob' Dahlberg. In the past, a millennia ago in the shadows of the galaxy, the relics of the very powerful Chapter of Davion were scattered throughout the galaxy. - Marteia Sentinel base, ruins of the heart of the Chapter- On the wings of the Fire Wolves' Regal Sabre jet- a relic of the Chapter's most powerful and valuable war machine- in the hands of a lowly Exterminator strike-team of the Blood Ravens Now in the present, the relics have started to appear again.
