Son Of Sardar Indian Movie Free Download Note.Q: Change contents of an.xml file and upload the file with a PHP form I want to be able to create a form that will upload an.xml file and change the contents of the file. The form itself will be fine, I just can't figure out how to do this. Thanks! A: There are few parts of the code you should write yourself. Here is the starting point: Create a PHP script which will read the file, change the content and send the file back to the form. Loop the POSTed file and call the script with the file parameter. To make it a bit more complicated, you need to save the changes in a temporary file instead of rewriting the original one. But I guess this is a bit overkill. Just keep in mind that the file used in the POST should have the extension.xml. I use PHP's strip_tags() function to remove the and tags from the XML content. Vancouver in the Morning: A Little Bit of Everything Here's a mix of media on Vancouver Island, with an emphasis on news and solicitor General Mike Morris. The cross-border traffic has increased, and it's "got to the point where we could have issues," Morris said in a surprise announcement this week. B.C. is proposing to spend \$40 million to build a new border station.
