Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had over 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. Then no, it isn't possible, but perhaps someone else has that info. Maybe so? How about sending him private messages. Or having a private chat with him? I'm sure people can and do get free robuxs by this means. Getting free robuxs through good friends and family members can be beneficial. I'm sure a lot of people have found that out through past experiences. Or perhaps we could ask him the question for us? I'd love to hear what he has to say. And we could ask him again at a different time. I'm sure he's got a life, and stuff to think about. So if I were you, I would continue to ask him, because it's working so well for me. My name is n4zygiedy. My friend gave me his robux he was saving, I did have to buy a sub to do it though but that was fine. So this is what I did... EDIT: With that said, would it be possible to have multiple users using one account and each user is allowed to use specific how many robux each user wants? Like the different accounts on our account with right clicking our username. But this problem still arises of getting too many robux at once. My name is n4zygiedy.
