Examples for many of our old "How to Code" books can be found on our publisher's page at Deitel. The books are listed 12 per page in alphabetical order...but that doesn't make any sense if you want to find a book. Books are listed alphabetically, not by author. Please email me if you would like to find specific books I have written and I will email them to you! Thanks! Richard M. Gold is the author of books and articles on programming.
